“WINGS” by Lina and Gus Ocamposilva

Public Art

by Art of Miami / September 20-2012

Lina & Gus Ocamposilva just installed a monumental sculpture in Miami at the King Terrace modern community complex. NW 27th Avenue and 125th Street. "Wings" is a 15ft high sculpture that represents the force of the wind and the beauty of nature in an abstract concept of the birds wings. Color is very important in Ocamposilva's Art Works; they are in people's lives specially in an environment where a colorful sculpture will attract the community attention. This is the 39th public Art project for Lina and Gus Ocamposilva since 2006 when they started to participate in public Art competitions.
